

QUARKXPRESS PDF EXPORT

Loading Sheridan PDF Settings

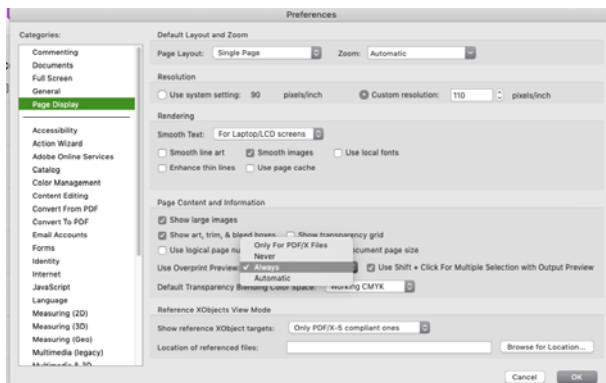

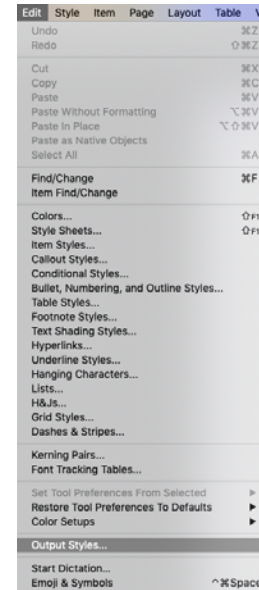

- Copy the job options file supplied to your desktop
- Go into **QuarkXpress**
- Go to **Edit/Output Styles...**
- Choose **PDF Output Styles**

- Click on **Import...**
- Browse to your desktop and select *Sheridan_QX_2023.xml* file

- Click **Open** and **Save**

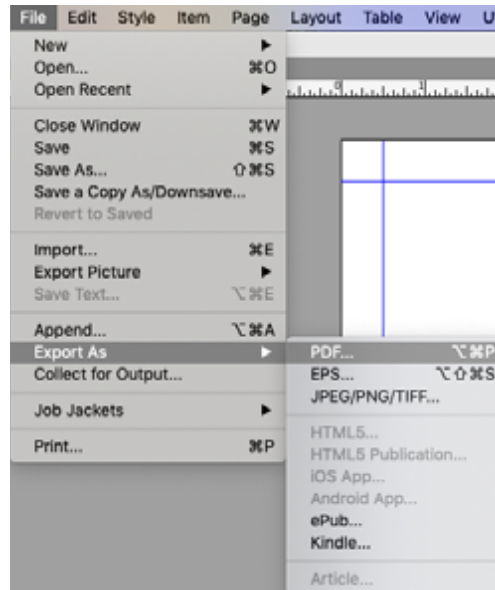

NOTE: Using the Sheridan supplied PDF export settings will flatten transparencies. To view the PDF correctly, make sure to set Adobe Acrobat Preferences **General/Page Display/Use Overprint Preview** setting to **Always**.

If you choose to not flatten transparencies during your PDF creation, please know that the Sheridan upfront software, Kodak Prinergy, will automatically flatten transparencies. Because of this, we suggest checking your proofs carefully.
